HOW TO USE NATIONAL JOURNAL INDEXES

Material in *National Journal* is indexed six ways:

personal names 2

including public officials and private individuals whose activities are referred to in *National Journal.* Excluded from this index are deceased persons, historical figures and authors of articles cited in "media" listings.

private organizations 12

including associations, law firms, lobby groups, trade organizations, corporations and universities whose activities are covered by *National Journal.* Divisions of private organizations are listed under the organization. Independent subsidiaries are listed independently. All organizations are listed under their complete, official names. If the official name begins with initials or a first name rather than the surname, the organization is filed alphabetically under the initial or first name as follows:

E. C. Knight Co. files with the E's
Arthur D. Little Co. files with the A's

government organizations 17

including congressional committees (section one), federal departments and independent agencies, state government units and international organizations (section two). Government organizations are filed under their substantive names; for example:

Office of Education is filed as Education Office
Bureau of Labor Statistics is filed as Labor Statistics Bureau
Commission on Campus Unrest is filed as Campus Unrest Commission
Advisory Commission on Intergovernmental Relations is filed as Intergovernmental Relations Advisory Commission
House Committee on Public Works is filed as Public Works Committee, House

Subdivisions of government units are listed under the main entry. Proposed government units are in *italic type.*

geographic areas 27

including states, cities, congressional districts, foreign countries and other geographic place names. Sections of the Geographic Index are United States, U.S. Trusts and Territories and Foreign Countries.

subjects 30

This structured index is arranged in broad subject categories which appear in **bold face type.** Each main category has subordinate categories: for example, under **communications** are subordinate categories, magazines, newspapers, telephone; under **transportation** are aviation, highways, railroads. Many cross references are included in the subject index to refer the user to the appropriate main category. Example: *aviation see transportation; television see communications.*

When persons, places or organizations are mentioned in the *National Journal* several times, *subject headings* are used under the name.

Major studies or analyses are indicated in **bold face type.**

Entries are *alphabetized* letter by letter. Example:

American Road Builders
Americans for Democratic Action
American Society of Newspaper Editors

Aetna Life and Casualty Co.
AFL-CIO
Air Transport Assn.

ROLL-CALL VOTES INDEX 34

This index lists Senate and House of Representatives roll-call votes for the first session of the 91st Congress by subjects.

If material cannot be located through use of these indexes, subscribers may call *National Journal*'s Information Systems Division for assistance, 202-833-8000, Ext. 383.

Personal Name Index

This index covers persons mentioned in Volume 1, Numbers 1-9 of National Journal. Generally excluded from this listing are deceased persons, historical figures and persons mentioned in "media" listings.
